Risk Management Plan

	Quality	Date	Budget	Scope of work
The insufficient number of testers on the project	🟨	🟥	🟩	🟥
Low qualification of employees (testers)	🟥	🟥	🟨	🟥
The smoke test failed at the release	🟥	🟥	🟥	🟥
Implementing automated testing	🟩	🟩	🟨	🟩

Risk register

ID	Risk (occasion)	Probability	Impact	RV	Notes
1	Changes in customer requirements during implementation	3	1	3	Detailed testing and analysis of requirements at the stages of requirements
2	Incorrect estimate of labor costs	3	2	6	Use a brainstorm or a testing matrix for a correct assessment
3	Unstable test. There are not enough system resources to fulfill the testing requirements	2	1	2	Allocate enough resources to run the tests.
4	The presence of difficult-to-reproduce cases that cannot be detected in the test environment	2	3	6	
5	Incorrect work of the login and registration form	3	1	3	Perform smart and integration testing after adding new functionality
