Summary		[Shopping cart page]: The column "Name" is absent for added product		
	Preconditions	The cart contains at least one product		
	Steps to reproduce	1. Open the website 3. Navigate to the 'Shopping Cart' page 4. Investigate the "Shopping cart " page for the existence of all required columns (Item ID, Product ID, Name, Description, In Stock?, Quantity, List, Price, Total Cost) in correct order		
	Actual result	The column "Name" is absent for the added product. The data about the name is replaced in the "Description" column		
	Expected result	The column "Name" should be placed between the "Product ID" and "Description" columns, and include appropriate product information
